Contract Terms/Efficiency Items to keep our propane delivery prices as low as possible:

- Please clear a path to the LP tank for each delivery. This is the customer's responsibility.
- Roads and driveways must be clear of snow, ice, and safe for our Propane trucks to deliver.
- The customer is ultimately responsible for ascertaining the tank percentage level.
- Truck routing keeps prices low. Same day delivery is \$200 and after hour's delivery fee is \$400.00.
- PS-USA has the right to deliver remaining pre-buy gallons before contract period end date (4/26/24).
- Deliveries using contract gallons will be to FILL tank until contract gallons are depleted.

★ **NEW for 2023** The contract gallons purchased on this year's contract must be fulfilled/delivered to the patron during the specified contract dates listed above. In the event that patron fails to fulfill/deliver contracted gallons, Petro Serve USA will charge a penalty to the patron. The penalty is a 25¢ per gallon charge for the undelivered gallons during the Specified Time Period. *Example: 1000 gallon contract purchased and only had 750 gallons delivered would equal a penalty of \$62.50 charged to the Patron's account – (250 remaining gallons not delivered X 25¢ = \$62.50)*

- Any pre-paid contracted funds remaining, after penalty, will be credited to patron's open account.
